Software Engineer with over 4 years of experience in designing, developing, and analyzing web applications. Proficient in modern software development practices and technologies, with a proven ability to deliver high-quality solutions. Seeking a challenging position in a reputed organization to contribute technical expertise, enhance development processes, and grow as a valued team member while continuously expanding my skills.

Experience

● Get My Parking | Bangalore

Software Development Engineer - I | Mar 2023 - Present

Parking Operator Dashboard (React js)

- Involved in the development of a comprehensive dashboard for parking operators to efficiently manage parking lots, set up tariff structures, and allocate passes.
- Additionally, the system facilitates partnerships with nearby businesses, enabling mutual benefits such as special offers or shared parking arrangements.
- Revamped the tariff module using Zustand state management to improve performance and scalability.

Persona Dashboard (React js)

- Involved in the development of a persona dashboard for partners to access relevant parking lot data, manage their involvement, and monitor collaborative benefits.
- Integrated a payment gateway to facilitate seamless online transactions.(NMI, Global)

Email Template automation (cheerio)

- Developed a dynamic system for creating base templates that can be whitelabeled for multiple tenants.
- Leveraged the Cheerio library to efficiently parse and manipulate HTML templates, enabling quick customization for various clients.

● Byju's | Bangalore

Associate Software Engineer | Nov 2021 - Feb-2023

Blog website (Nextjs, strapi(CMS))

- Utilized HTML, CSS and JavaScript to create 100% responsive pages.
- Writing most efficient graphql queries to fetch data from CMS like Wordpress and Strapi.
- Revamping the website with new technologies

Byju's website (Nextjs, Node js, Strapi(CMS))

- Writing RESTApi's using node js and express. Maintain the integrity, security and efficiency.
- Understand the stake holders requirements and developing the next component to meet their needs.
- Contributed to the complete revamp of Byju's website to enhance performance, scalability, and user experience
- Collaborated with cross-functional teams to redesign and implement key sections of the website.

● Element5 | Chennai

RPA Engineer Trainee | Sept 2020 - Oct 2021
